PSO/CDS

FALKLAND ISLANDS

1. The answers to the two queries CDS raised this morning are:
  - a. C130 - Change of Role It is impossible to re-role the KC 130H (tanker) into the load carrying role. The Argentinians hold two KC 130H and seven C130E (the normal load carrying version).
  - b. Radar TPS 43 We have no ELINT as to whether it has yet started to operate.
2. I will shortly be issuing a report assessing the capabilities of the Argentinian naval bases.
3. We plan to brief, as tomorrow's special subject, Argentinian ASW capability.
4. CDS's marked map will be in his office by 18.00 hrs this evening.
