NOTE OF ACTIONS FOLLOWING S of S's MEETING AT 2.15pm ON 13 APRIL

1. DGI has been instructed to proceed to the US (and to travel by CONCORDE if necessary). Aim is to discuss with relevant US authorities all ways and means of increasing intelligence take on Argentine and Falkland Islands.
2. PUS has asked Sir R Armstrong for early discussion with Chairman of JIC and Intelligence Coordinator on present system to circulate Intelligence. Likely line by PUS (being floated at JIC this afternoon) is to let present system of distribution to our overseas posts, allies etc continue; but to have a UK EYES ONLY circulation (including relevant Ministers) based on MOD's INTSUM to which would be added some diplomatic intelligence and sharper comment (including notification of items of dis-information).
