PR FACILITIES FOR OPERATION PARAQUET

//
 /
 1. I have seen DCPR's minute of 19 April and the Private Office's reply of 20 April (copies attached for action addressees). I now attach a first shot of the draft announcement. I should be grateful for comments from the Defence Secretariat (consulting the Service Departments as necessary) and DD Ops (RoW) on the general shape of the announcement, and on the following specific questions:-

- a. Are there objections to mentioning SBS and SAS;
- b. Is there a reason for not listing the ships involved;
- c. What else could be included (please add what detail you can to fill the blanks).

2. You will appreciate that the announcement has been drafted on the assumption of quick and easy victory and may need to be re-shaped in the light of events. I will prepare a separate piece on

SECRET

our solid claim to sovereignty over South Georgia.
Subject to your views, I see no reason why a
Press announcement should not be couched in the
same terms as a Parliamentary statement, suitably
topped and tailed.

3. I should be grateful for comments by close of
play today.

Comments passed 1630 hrs.

1. Do not refer to P-O-W. (eg say "will be repatriated")
2. Have doubts about naming ships (Their presence in one group
gives constitution of other).
3. DS 5/6 must advise on SAC/SBS. being named - but there could
be psychological value in so doing.
