CDS

SANTA FE

1. I attach three intercept signals and the signal to CTF 317.

2. The intercept signals are confusing but the end result unquestionably poses a threat.

CDS

ARGENTINIAN AIR RECCE OF S GEORGIA GROUP

1. I attach CTF 317's signal (FLAG J) which ACDS(Ops) discussed with you, the reply he made (FLAG K) and DCDS(I)'s Int assessment (FLAG L).
2. I drew FLAG J to PS/S of S attention and subsequently heard from 1SL's office that 1SL was annoyed that this had been done. I am not sure of the rights and wrongs of this and I only mention it in case 1SL raises it with you.
