

EWright (4/6)

Mr Wright

Mr. Wright

Then was it OD(SA) supposed to have decided on 27 April that changed the situation?

ROEs

Tha 29/4

1. The DS11 Duty Officer (Mr Collins) telephoned this evening with the answer to your question to Mr Stewart about ROEs for submarines outside the exclusion zone. It is that Rule 5 for SSNs was already in force. The current version of the Rule ends with the words '... and may be attacked.' In other words there has been no change in the situation. Mr Stewart will be confirming this in writing.

2. I hope the above makes sense - I do not have the relevant papers.

Emergency Unit

Mr Gillman
Mr Wright

Tha 4/5

Thank you

I can only assume that OOSA understood a general proviso that any SSN outside the MEZ could have Rule 5, whereas up to that point only Sptwid was in that situation and therefore envisaging that freedom of action.
