

PRIME MINISTER

FAMILY PRACTITIONER SERVICE

Mr. Fowler is at long last nearly ready to circulate the draft Green Paper on Family Practitioner Service.

The idea is at present that this should be discussed by H Committee early next month. I understand that it is a fairly wimpish document and, whilst you will have an opportunity to comment to the Lord President, or to Mr. Fowler after it has been discussed at H Committee, you may prefer that it should be taken at a meeting under your chairmanship.

Would you like it to be discussed at E(A) instead of H?

DKW

DAVID NORGROVE
18 February 1986

I don't think the
Lord President would like it
if I bring forward the meeting,
I will take care before the meeting.
