message from David. He has drafted SofS on the information which PUS gave last night. SofS's view is that "if the peace process is alive" (by which he means that the US are prepared to accept the message sent by Pym yesterday) we should make the military case for a clear decision one way or the other. If the strong feeling is in favour of hold "this should be capable of being relayed to the SSM captain so that he has clear and uncomplicated instructions and to not put him at risk.
