MR. FLESHER - on return

cc Duty Clerk  
Political Office  
Drivers

There was a disaster yesterday evening because the Prime Minister and those working with her in the Study were not aware of the time at which she had to leave for Windsor for her dinner with Lord Vaizey.

Could we please make it a rule that when the Prime Minister has an engagement outside 10 Downing Street (other than in the House of Commons or in the immediate environs of Westminster), a departure time is always shown on the printed diary.
