

NOTE FOR THE FILE

I confirmed to Mr. Allday at BNFL and Eric Huke at Energy that the Four Site visit would be going ahead for 1 November. I indicated the outline programme, and times, to both. Energy and BNFL will now draw up a detailed itinerary and submit it to us for approval.

I indicated to Energy that they would also need, apparently, to seek Home Office approval for helicopter landings at the sites concerned.

The Garden Rooms will, in due course, need to sort out arrangements for the RAF flights to and from Speke, and between sites. This can await the arrival of the draft itinerary. So BF  
on 29 July.
