RESUME

1. I regret I telephoned Greenwich after you had turned in (at 0125) and as your night had already been cut short decided not to disturb you to tell you about PLYMOUTH, SIR GALAHAD and SIR TRISTRAM.

2. Enclosed signals and news release give details of PLYMOUTH's moderate damage. Situation with regard to LSLs less clear. Argentinian losses look like at least 7 Mirages but possibly up to 14.

3. Recent intelligence received indicates we may have to rethink SF Operations but need to speak to DCDS(I).

4. Priority for reading:

- a. Speaking Notes FLAG B OD(SA) file.
- b. Loose signals and papers which are in order.
- c. Briefs in COS folder and OD(SA) folder.
