UPDATE AS AT 121445A JUN

1. The plan was for a 3-phase attack:

Phase 1. 3 Cdo Bde (including 1 WG and 2 Para) to attack MT LONGDON/TWIN SISTERS/MT HARRIET.

Phase 2. 5 Inf Bde (2 SG and 1/7 GR) to attack TUMBLEDOWN MT/MT WILLIAM.

Phase 3. Attack SAPPER HILL.

2. Northwood is getting frequent reports now and CINCFLEET wants to brief the FM and CDS together at 1700. *Good news, basically.*

3. GLAMORGAN. Latest is attached. The position is much better than feared at first. Since the attack occurred at night, there is hope that the Argis will not necessarily be aware of their success.

4. Black Buck. Vulcan attack completed but not yet reported back at ASI.
