PROFESSOR STEWART

CABINET OFFICE

WORLD CLIMATE CONFERENCE

The Prime Minister is due to speak at the opening of the World Climate Conference in Geneva on 6 November. She would be grateful if you were able to put down a few thoughts for her speech over the next two or three days. She has of course given several speeches on the environment, and drained the ideas of most of those who normally contribute. She rather hopes you may have one or two fresh ideas! You may like to have a word.
